About This Game

Portal™ is a new single player game from Valve. Set in the mysterious Aperture Science Laboratories, Portal has been called one of the most innovative new games on the horizon and will offer gamers hours of unique gameplay.

The game is designed to change the way players approach, manipulate, and surmise the possibilities in a given environment; similar to how Half-Life® 2's Gravity Gun innovated new ways to leverage an object in any given situation.

Players must solve physical puzzles and challenges by opening portals to maneuvering objects, and themselves, through space.

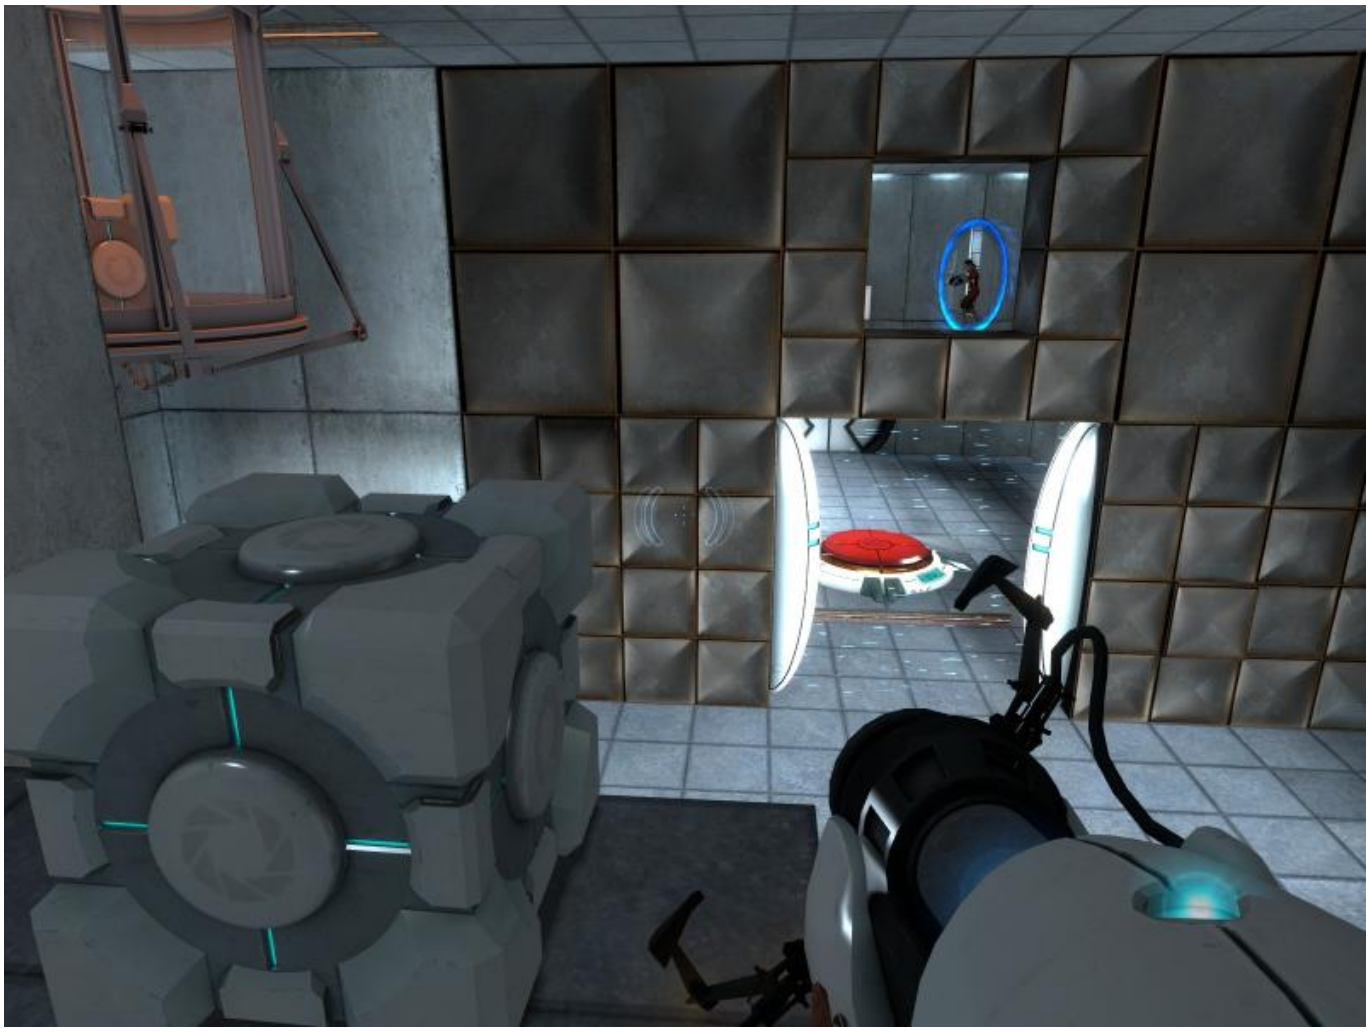
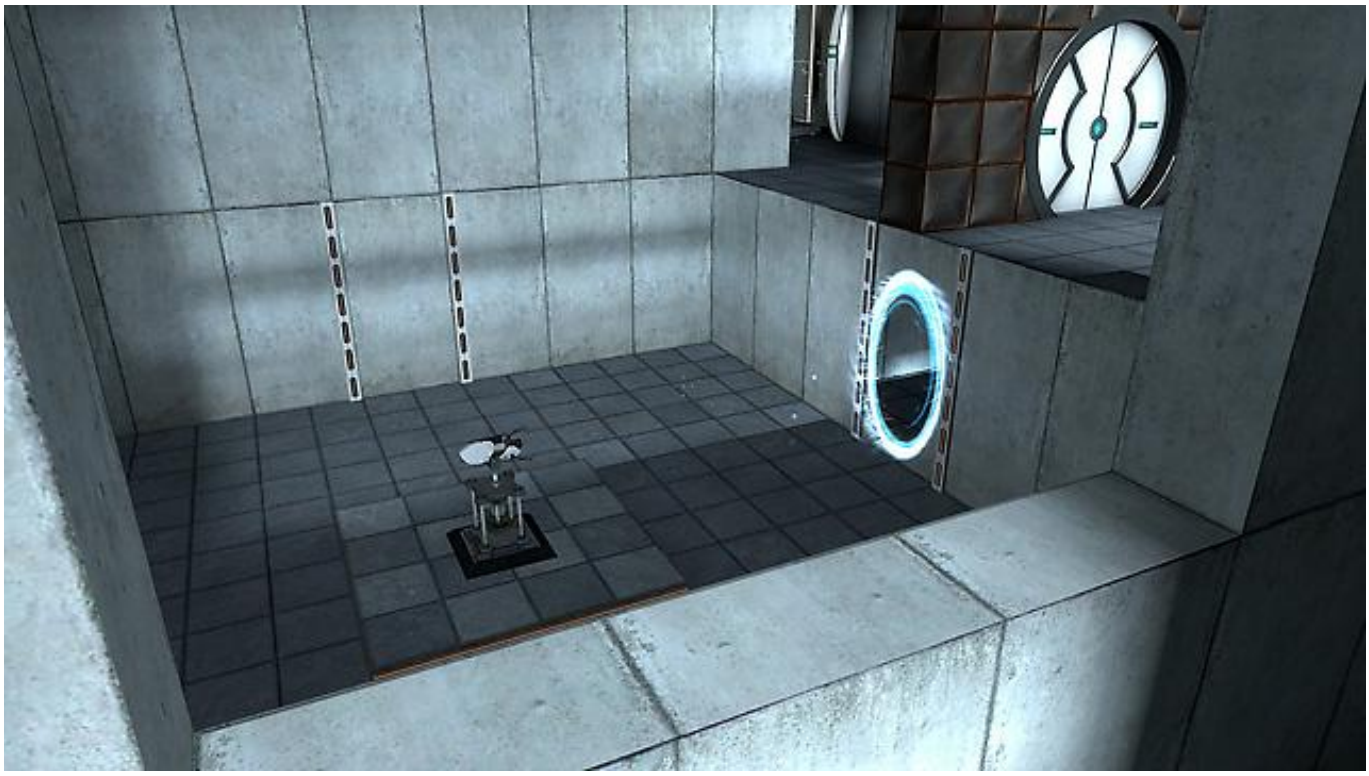
APERTURE





Now you're thinking with portals. Great logic game :). This is one of these games that, when i was younger, it blew my mind with how cool it looked. It's a great game and if i ever have kids, this is one the games ill show them.. This game is a magic Be sure to play

this is great. this is good gaem, buy game

pls. Great escape game. The only one I like in deed.. When you die, I'm going to laminate your skeleton and pose you in the lobby.

This game is quite a brain twister, I love it. Played through rather quickly, 2 to 3 hours but it is so worth it. It has a type of sarcastic humor that is amusing without being annoying. The only thing is some jumps can disorient you. It is good to be aware of that.. Short but sweet. Get this with the Orange Box.. I... don't know what I'm supposed to say.

This is one of my favorite games, period.

The atmosphere built by desolation, ambiance, and the omnipresent AI GLaDOS is something I have yet to experience in any other game. Not even Portal 2 was able to recapture that atmosphere.

All the major turning points in the game are perfectly executed.
And with the addition of the ARG update that added the SSTV signal and morse code producing radios makes it that much more unsettling.. In 2019 it stills a good game to play!. A very difficult yet fun puzzle game. I would only recommend this to players who enjoy puzzle games, because it's pretty difficult, and takes some time. Also, the game is fairly short. Once you beat it, there isn't really any replay-ability in this game. Overall, I would recommend this to people who love puzzle games, but otherwise, not really worth it.
